2÷5CR

 **PEDROLLO**[®]
... the spring of life

NEW

TECHNICAL CHARACTERISTICS

- ▶ Completely renewed range
- ▶ New design
- ▶ New improved hydraulic, even more reliable and with higher performance
- ▶ Reduced energy consumption
- ▶ The quietest model in the centrifugal series

INSTALLATION AND USE

Suitable for use with clean water and liquids that are not chemically aggressive towards the materials from which the pump is made. As a result of their quietness, these pumps are widely used in domestic applications such as the distribution of water in combination with small and medium sized pressure sets, and for the irrigation of gardens and allotments, etc.

APPLICATION LIMITS

- Manometric suction lift up to **7 m**
- Liquid temperature between **-10 °C** and **+40 °C**
- Ambient temperature up to **+40 °C**
- Max. working pressure **7 bar**
- Continuous service **S1**

CHARACTERISTIC CURVES AND PERFORMANCE DATA
